# Abhay Khare

## Full Stack Web Developer

### PROFESSIONAL SUMMARY

Passionate and results-driven full stack developer with a proven track record in solo and collaborative projects. A creative problem solver with a keen eye for design and effective communication skills. Ready to contribute dynamic solutions and elevate web development initiatives

### PROJECTS

#### 1. Telemedicine | 🌐 | 📱

##### HTML | CSS | JavaScript | GitHub

- Developed a Telemedicine website using HTML, CSS, and JavaScript, providing convenient access to pharmaceuticals, wellness products, and medical supplies.
- Designed and implemented dynamic product displays with CRUD operations and Wishlist functionality for personalized curation.
- Led the development of APIs for seamless communication within the system.

#### 2. Bed Bath and Beyond Clone | 🌐 | 📱

##### HTML | JavaScript | CSS

- Led the development of the cart page, enhancing user experience. Contributed to sections of the product page.
- Authored a comprehensive Readme file for clear project documentation

### WORK EXPERIENCE

#### HCL Technologies

##### Senior Analyst

December 2020 - Present

##### Job responsibilities:

- As a network security analyst at HCL Technologies, I specialize in managing firewall technologies, responding to incidents, changes, and tasks with a client-centric focus.
